ADDENDUM NO.TC OFFICE RENOVATION #1

Prepared by: Peg Kusmierski/Gary Buczkowski Hoffman Estates Park District
Date Issued: January 4, 2017

Project: **Triphahn Center Renovation 2017**

NOTE: The following changes are hereby made to the contract documents and insofar as the original contract Documents are inconsistent therewith, the changes herein shall govern. All Bidders shall acknowledge this addendum by inserting its number and date on their bid form.
Items included in this addendum:

Item #1 GENERAL

Due to the location of the existing base board heater and the fact that they will remain, a new CAD drawing was created to show how the office partitions will connect to the north wall. Two 6" wide stud walls will extend south from the block wall approximately 2'-2". The office partitions will be attached to these stud walls. Please see attached updated CAD with the panels plotted in and/or check the website at <http://www.heparks.org/general-information/bid-information/>

- The proposed office area running east to west will be 32'2"
- The proposed office area running North to South will be 19'1"
- The successful vender for this project will be required to provide filler strips to make up any difference between proposed stud walls and office partitions.
- At the window location a stud wall will be built and provide enclosure adjacent to the existing glass. The wall partitions will be anchored to this stud wall at this location.

Item #2 GENERAL

Due to the discovery of the base board head conflict the bid opening for this project has been extended to January 31, 2017 at 10am C.S.T.
