8. President's Report:

President Bickham thanked Executive Assistant Kaczmarek and staff who attended IAPD/IPRA conference for filling out, presenting and compiling the Conference Education Sessions and sharing the information with everyone.

Kudos on the Spring guide with summer planner and maps and noted it was nice to see cooperation and intergovernmental support with neighboring towns; great exposure.

He mentioned the letter of praise which a member sent to Prairie Stone regarding Joe, Mark and Katie Basile's quick response to his wife who was overcome by a dizzy spell. He commended staff for helping the member.

9. Adoption of Executive Director's Report:

Commissioner McGinn made a motion, seconded by Commissioner Kilbridge to adopt the Executive Director's Report as presented. The motion carried by voice vote.

10. Old Business:

None

11. New Business:

A. Mechanical system TC north side / M17-025:

Director Buczkowski indicated there was \$13,800 available as part of the bid to update HVAC for the North side renovation. He also explained that the cost to replace and make operational 11 non-functioning pneumatic components was \$7,800 and to convert all the pneumatic controls to electronic in the renovation area was \$39,675 (this does not include the Early Childhood and gymnasium areas in the original building). He stated that to spend \$7,800 on repairing the old pneumatic system was not the best use of the funds and it would be prudent to look at a temperature control system. Trane made a proposal for \$39,675 to convert the entire renovation area from pneumatic to electrical controls.

Commissioner McGinn asked how we knew it was not working. Director Buczkowski explained that certain areas were cold.

Commissioner Evans had questions from Comm Rep Friedman regarding what the district would be getting for the \$39,675. It was noted that it would replace all the pneumatic systems with electronic in the renovated area not just a repair of the 11 bad pneumatic components.

Commissioner Kinnane asked if we needed to bid or get multiple quotes. Deputy Director Talsma said it would be an emergency replacement and covered by the original bid as a change order.

Commissioner Kinnane asked what the confidence level was to do this. Director Buczkowski noted he felt confident that Trane knew what they're talking about.

Commissioner Kaplan asked if this was the whole HVAC on the north side. Director Buczkowski indicated that it is all the equipment on the north side in the renovated area and did not include the gym or ELC area.

Commissioner Kaplan asked why the board was finding out now instead of 2 months ago. Director Buczkowski noted that the testing of the HVAC system was two weeks ago and that was when the non-functioning components were located and the quote given to make the repairs.

Commissioner Ron Evans asked about the rebates. Staff will check.

Commissioner Kilbridge asked if the pneumatic controls were only on the north side. Director Buczkowski said only the north side renovated area was being replaced. Preschool and gym are old and staff would look at those areas for the next budget.

Commissioner Kilbridge asked if there would be cost savings. Director Buczkowski said probably not now. Commissioner McGinn asked if we were saving now while it's under construction and Director Buczkowski indicated that yes, it is more efficient to make the repairs while the building was open.

Commissioner Kaplan asked if not having the gym and ELC changed would be a problem. Director Buczkowski answered no.

Commissioner Kinnane asked how much it would cost to do the rest and how long to get the quote. Director Buczkowski replied that it would cost more; but staff did not have a dollar amount; this expenditure itself was higher than anticipated.

On a Roll Call: Carried 5-1-1
Ayes: 5 Evans, Kilbridge, Kinnane, McGinn, Bickham
Nays: 1 Kaplan
Absent: 1 Mohan

12. Commissioner Comments:

Commissioner Kaplan thanked the Comm Reps for the work they do.

Commissioner R. Evans agreed. He mentioned that the golf course is re-opening Saturday and reminded everyone about the Fish Fry on Fridays. He inquired about a dance for grandparents.

Commissioner Kilbridge echoed the sentiment about the Comm Reps.

Commissioner McGinn also appreciated the Comm Reps and enjoyed hearing at conference how great this district was.

Commissioner Kinnane agreed and stated that we are way ahead of other states.

President Bickham thanked the community reps for all they do.

13. Adjournment:

Commissioner R. Evans made a motion, seconded by Commissioner Lili Kilbridge to adjourn the meeting at 7:53 p.m. The motion carried by voice vote.

Respectfully submitted,

Craig Talsma
Deputy Director/Director Admin & Finance

20. Our Native and Wildflower seed for our natural areas has begun to arrive and is being put down as the controlled burns are completed.

PLANNING & DEVELOPMENT

1. Triphahn North Side Renovation Project:

Architectural renovation projects always come with a degree of uncertainty as a result of not knowing what is buried behind the visible. In addition, trying to predict how new design ideas are going to work with the existing conditions presents budgetary challenges. In this case, a tight budget driven by an aggressive ROI requirement dictated that existing systems would have to be utilized and not replaced unless they were found to be non-functioning.

With the new walls up and 75% of the mechanical infrastructure in, the project has reached a point that the majority of the risk of the unknown is behind us. Existing subgrade soils were found to be more than adequate to support the new steel structure designed to support the roof and movable wall partitions. Slab moisture testing came in less than the minimal critical levels required for floor warranties.

On the flip side, additional existing drywall needed to be removed to accommodate electrical and communication wiring. In some cases wall thicknesses had to be increased to accommodate larger conduits. Some of the existing doors and hardware that were originally going to be reused needed to be replaced as a result of new functionality related to door closures. Baseboard heating in the proposed office area needed to be reconfigured so as not to be an obstruction in the new mountable wall office configuration.

Recreation program staff changed the flooring in the off-ice training area from impact rubber to a concrete surface. Since materials had already been contracted and procured, the replacement came at some additional cost to the project. However, the purchased rubber material will go to good use out at PSSWC.

The final major impact to the budget came with the HVAC controls. Inspection of the existing pneumatic control equipment identified eleven components that were not functioning as originally designed. A cost to replace those items was presented to staff by the contractor. At the same time, a cost to replace that equipment along with all other control equipment with new electronic based equipment was presented for comparison purposes. It was decided by staff and the Board that upgrading the existing HVAC controls in this renovated area would benefit the district and its customer users in the long run.

The impact of these unforeseen necessary changes and the minor other change orders have reduced the project contingency from \$93,000 to just under \$25,000. With 95% of all materials bought, staff is still optimistic that this project can be brought in at its budgeted amount and on time.

2. Playgrounds

With the unusually warm weather we have experienced, staff is planning for an early start to the outdoor construction season. Playground equipment has been ordered with the expectation of delivery the week of April 10th. Award of the installation bids by the Board will allow the contractor to begin the renovations immediately in April. If this was to occur and the weather cooperates, the playground renovation projects could be completed by the Memorial Day holiday.

3. PSSWC Club Locker Room Wet Areas Renovation

Good news was received from the State that "A State review and permit would not be needed on this project so long as the current design configuration and fixture count did not change". With this news, staff is directing the architect to keep the current configuration. A new base drawing has been completed by the architect and the mechanical consultants are now inserting their respective as-built equipment and /or systems. Wall options have been discussed along with waterproofing methodologies and/or systems. Drawings will be completed by the end of March with bids going out sometime in April.

RECREATION DIVISION

I have been coming to this gym for about 9+ years now I think? I have switched one time to life time (ew), but knew I had to come back. I've never really even felt like I was going to a "gym", it's much better than that. They have an INDOOR track! An out door running/walking trail that is incredibly scenic. All the members are very kind and respectful, the staff is amazing, the housekeeping staff does a great job at keeping the place clean. After my workout, typically cardio and lifting, I sometimes utilize their lap pool, water is never too cold always just right, then I'll relax in the hot tub, then go into the steam room then enjoy their luxurious locker rooms. I wish they were open 24/7 but besides that they do have very good hours. I will be a member for a very long time... Okay so I came back to add ONE thing I really don't like about the gym... it's FIFTEEN DOLLARS for a guest pass! I wish it was free or a better deal or something, I feel like in my 9 years of coming I could have gotten many people interested in becoming a member but no one wants to pay 15 dollars to check it out!

Member Services

- During the month of February, the Member Services team exceeded the net membership goal by 15 members, (the net goal was 32 and the net total was 47).
- The ongoing Friends in Fitness member referral program continued to be a primary force in generating new memberships in January and was further magnified and promoted with an extension of the 'Give 25/Get 25' referral opportunity. (Both the referring member and the new member receive \$25 of club credit following the completion of the first 30 days of membership). There were a total of 16 new member referrals in February.
- The PSS&WC enrollment special was advertised on each of the following:
 - District's electronic marquee signs throughout the community
 - VHE electronic marquee signs located at the corner of Shoe Factory Road and Beverly
 - The ENROLLMENT FEE banner on the north side building exterior
 - Select Facebook posts throughout the month (including a special 'Share the Love of Fitness' free guest opportunity for members during Valentine's Day week)
 - Guest and tour follow up targeted email via Retention Management

- Both internal and e-based targeted marketing were utilized to inspire member referrals as well as to reach all HEPD clients throughout the community. The HEPD bi-monthly Eblast included the enrollment promotion details, and targeted emails through Retention Management continued to be sent throughout the month to promote the club cash incentive for member referrals.
 - HEPD and PSS&WC websites (scrolling banner updates)
- The number of credit card denials following February billing continued at a consistent pace in comparison to the previous recent months. The Member Services team resumed efforts to contact members proactively to obtain updated information for billing continued via mail and email during the month of February. These efforts also included phone calls and person-to-person contact upon check in at the Service Desk. While the Member Services team successfully managed the 90-day collection effort, significant collections were also achieved at the 60-day and current month levels, which translate to fewer potential 90-day cancellations after the New Year. This collaborative intensive collection effort resulted in matching January's RECORD LOW number of 90-day cancellations (total of 7), which significantly reduced the number of total cancellations than projected for the month of February and helped the team exceed its monthly net goal.
- The Member Services team is currently working on a potential new corporate membership account with a few businesses within the Prairie Stone Business Park and within the surrounding community. Efforts will be ongoing in February to establish corporate visits to the companies to meet with management and employees in an effort to promote enrollment.
- The Member Services team received the following letter from the Salvation Army in response to the outpouring of generosity from PSS&WC members during the recent holiday 'Angel Tree' toy drive:

Re: The Elgin Salvation Army Christmas "Angel Tree" Toy Drive

To: Our Dear Friends

I would like to take this opportunity to say a special word of Thanks to you and your organization for participating in our annual "Angel Tree" program. With the help of you and your employees we were able to enrich the lives of many needy people in our community.

Please extend our appreciation to all who participated in the Christmas Angel Tree program. It is because of your kindness and generosity that we were able to help more than 480 families by giving toys and clothing to more than 6,508 children this Christmas season, 27 sponsors. Please know the joy you helped bring to others is a tribute to the love we have for the people of our community.

May God continue to bless you and yours with Peace, Health, and Happiness in the New Year.

Thank you again,

Kelly Hanton, Lieutenant
Corps Officer

- The Member Services team coordinated a month full of special events in February for members to inspire continued usage interest (see image below). Events included several special fitness group classes and workshops along with a number of fun activities, all of which help to bolster retention. The Member Services team also continued to promote the series of online motivational quotes that are posted each Monday on social media to help motivate members to pursue fitness goals in the New Year and throughout. These 'motivational Monday' quotes are also printed and placed strategically throughout the club for members to discover during their workouts. A few highlights to note from the February wellness calendar:
 - The Super Bowl Football Squares event, which has become a perennial favorite among members, attracted participation from over 100 members during the week preceding the Super Bowl. For every 2 workouts completed during that week, members earned 1 square on the poster. Members were encouraged to visit the PSS&WC Facebook page to find out the coordinates and winners were selected after each quarter (including overtime)!

- Between February 11th and February 14th, the 'Share Your Love for Fitness' campaign inspired members to bring in guests for a complimentary workout. The campaign generated a Facebook reach of over 800 people and created new formidable leads for the Member Services team.

Operations and Fitness Departments:

- PSS&WC hosted a variety of athletic rentals including a large youth basketball tournament in all 3 gymnasiums, as well as volleyball tournaments during the

month of February. Although birthday parties and scout lock-ins are still offered at PSS&WC, efforts have been taken to transition to larger multi-court athletic rentals that reduce labor intensity while generating steadier revenue streams.

- A targeted email message that promotes SFAC and PSS&WC lifeguard opportunities in the upcoming summer months was sent via Retention Management to all previous student summer pass holders from 2016 as well as student winter passes from this past season.
- The Operations Manager worked with First Serve and the HE Parks Business office on updating private and semi-private lesson tennis fees at PSS&WC effective in March.
- Preliminary efforts are underway to determine timelines and project details regarding the upcoming café and tennis court renovations. The tennis court renovation is scheduled to take place during the month of August and will include the addition of 'blended lines' on the courts to support additional youth and senior programming options. The Operations Manager is currently working with a representative from the USTA on securing a grant reimbursement to cover the cost of the blended line application.
- The Medic 2017 class schedule has been established and e-mailed to all FT team members. The first Medic AED, CPR, and First Aid Class were taught on February 25th, Saturday by Katie Basile and Debbie Albig. Class was held intentionally with a smaller number of students, due to the use of the new updated format (including updated video and student manuals with new content). Class went very well, certifying 9 part-time staff members. The next class will be held on March 18th.
- The Superintendent of Facilities, Katie Basile, continues to participate within the IPRA Proconnect, attending a session on February 7th. The next session is scheduled for March 8th, which will be the final session in culmination for the 2016-2017 season of the IPRA Proconnect. Within the final meeting in March, the new board members will be announced. Katie Basile will be serving on the Board of Regents for the IPRA ProConnect for the upcoming 2017-2018 season.
- PSS&WC has an upcoming Nutrition Workshop, Your Nutrition Questions Answered, on 3/18, taught by Kathy Brown. The seminar has been added to the monthly wellness calendar and marketed through the guide.
- The personal training department will promote a 5 pack promo for all members in March. With membership offering a 3 pack promo for new members.
- Within the area of group fitness class participation has again increased across the board! Highlighted classes include:
- Forever Fit 30 Friday Spin 25(MAX) Muscle Pump Yoga 25-30
- Fitness department has started the bid process for the ordering of the new fitness equipment, as budgeted within the 2017 operating capital fund for PSS&WC.

Climbing Wall

- Youth classes for the climbing wall continue to fill with 9 and 8 participants in the 6pm & 7pm classes Wednesday nights. Because of the consistent numbers and the number of returning climbers we are able to split the program into a beginner class and an intermediate climbing class. Winter session 2 is scheduled to begin February 15.

Early Childhood Programming

- Kid's First Sports basketball program had 11 participants. This session soccer ran with only 6 participants. We are continuing to work with the C&M department to find ways to attract interest.

The right column features a 'Recent Reviews' section. The most recent review is from Susan Thomas, posted 14 hours ago. She wrote: 'Our dogs really enjoy going to the park and running free with the other dogs. The owners we have met there are friendly and tend to there dogs. The water is shut off for the winter so be sure to bring water for your dog to drink until they turn it back on in spring. The poop bag dispensers are empty sometimes in the winter but there is always one dispenser that has bags (south end of park) Unusual Feb warm spell and lots of dogs out to play, glad all dispensers had been filled, yeah. A great place to socialize for dogs and people!'. Below the review is a photo of a dog and a blue doghouse. The page also shows a 'Like' button, a 'Comment' button, and a 'Share' button. At the bottom, there is a comment from David Webster and a response from the page manager: 'Thanks for the review Susan! I will forward your comments to the manager. We appreciate the feedback!'. There is also a comment from Sandy Manisco: 'Commented on by Sandy Manisco (?) - Just now'.

Mobile App Downloads – Source: Apple iTunes & Google Play reports

The app has been available since April 25, 2014. C&M continues to promote various features of the app to increase usage. Below is a chart showing progress over the previous 10 months. As of October 2015, 667 mobile app users had Push Notifications turned on.

May 2016	June 2016	July 2016	August 2016	Sept 2016	Oct 2016	Nov 2016	Dec 2016	Jan 2017	Feb 2017

Mobile Access – Source: Google Analytics

“Prior to” column indicates how users accessed HEparks prior to the app and mobile-friendly website. Responsive mobile-friendly website launched Oct 28, 2014; app launched April 25, 2014; mobile WebTrac launched in late November 2014.)

Source:	Prior to App & responsive web: Feb 2013-Feb 2014	Feb 1-28, 2016	Feb 1-28, 2017	Change from last year
Desktop	63%	17%	15%	-2%
Mobile	27%	64%	72%	+8%
Tablet	10%	18%	12%	-6%

*A decrease in tablet views is speculated to be a result of more mobile phone use as mobile phone screens are increasingly larger. Tablet sales have leveled off. It is more convenient to use a smart phone which is always within reach.

Website HEparks.org – Source: Google Analytics

Hits to the website are down slightly.

Program Guide Online – Source: Google Analytics

Hits to the online program guide are way up this month, likely due to Spring Guide which came out in February.

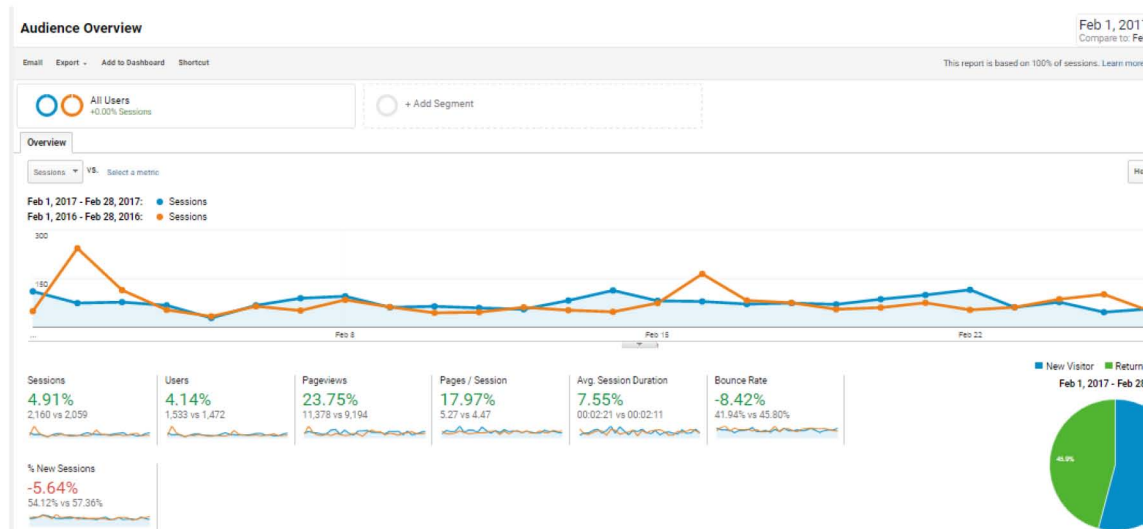

WebTrac/Online Registration Page Hits – Source: Google Analytics

Hits to online registration have dropped this month as we have been driving more users to the mobile webtrac page, with the increased use of mobile devices for web browsing. In electronic marketing, links go primarily directly to Mobile Webtrac pages.

Mobile Webtrac – Google Analytics

The number of people accessing Mobile Webtrac from their mobile devices is up significantly as compared to last year, and up significantly higher than those browsing Webtrac with a PC. A strategy we use that is having a great impact is that when we post links on web, email and social media we typically link directly to mobile online registration pages. Unfortunately, we have found that the program details are harder to view on the Mobile Webtrac, so programs that we think are important to view the details are directed to another source, such as PDF of the program guide or regular Webtrac.

Bridges of Poplar Creek Board Report

General Programs

Outstanding weather in February provided us a chance to OPEN on February 17th. Days in the upper 60's for opening weekend provided us with the busiest February of all time.

Preferred Tee Time contracts have been received. We have a total of 30 groups contracted. We do have few times remaining to fill and have issued contracts for another 4 groups. The additional groups are coming from Indian Lakes as they have closed their doors. We had 28 groups last season.

League Contracts have been sent out. We are looking at adding 2 new small leagues for this upcoming season. We are in preliminary talks and working out dates and times for these groups. 1 group is from Schaumburg Golf Course and the other is from Indian Lakes.

Fish Fry started February 17th. Three weeks in and we have serviced 178 guests with the counts increasing each week heading into Lent.

Easter Brunch reservations are now available. We currently have several reservations for a total of 65 guests.

Golf Maintenance Summary

February doesn't usually mean golfing weather, but this year was a different story. With the temps in the sixties for numerous days the golf course opened on 2/17/2017. Going into winter we applied about two tons of sand per green on the golf course to protect the plant from ice damage and or winter desiccation. Prior to opening we needed to smooth out all the sand on the greens so that golfers would be able to putt. The sand moved over the winter due to two separate rainfalls. All greens were cleaned and drug using our coco drag matt to smooth out sand on the greens, the overall goal was to keep the sand on the greens to protect the plant from all the golf about to be played as well as minimize the amount of ball marks. The biggest concern about opening the golf course early is the likeliness that we are still going to experience freezing temps and all ball marks and footprints will freeze and then be noticeable on the greens surface until aerification in the spring. To combat this we worked with the golf operations staff to fix ball marks on greens every morning that we were open. This was a huge success that took about two to three hours every morning, along with fixing ball marks we were able to roll the greens twice this month. Like we anticipated we did experience another freeze and I am glad to report that the greens are extremely smooth with no damage. Since the greens have completely thawed out we were able to put solid tine holes in the greens and drag in the winter sand to get the greens ready for their first mowing.

Outside of all the work on the greens to keep them in great conditions through February play the golf course maintenance staff was busy with the following items:

-  Branches and stick removal
-  Course setup with tee markers and garbage cans
-  Rough grading completed on #17 gold tee box
-  Equipment maintenance
-  Bunkers cleaned out and ready for the next step in the renovation process
-  Maintenance shop improvements

Finance/Administration

- Staff has completed the year-end account verification and preparation for the 2016 audit process. Auditors will be on-site the week of March 20th for field work and testing.
- Staff met with the Village and Plum Farms Developers regarding the West side TIF.
- Staff attended the community breakfast meeting held by the Mayor.
- Staff attended the legislative breakfast meeting in Schaumburg.
- Staff has been training with Vermont Systems, the software company that supports RecTrac, in order to begin rebuilding the data of our offerings to incorporate more items on-line. In conjunction with that, the March Madness 2-person tournament being held at BPC is being offered on-line using a ticket purchase method. New customers to our website, who previously had to wait for their account to be setup, may now begin on-line registration immediately. New accounts and residency confirmation will occur within 2 business days to ensure accuracy.
