

Dear Parents,

April showers bring May flowers! Sorry just had to say it! April is my favorite month and yet the saddest, because it represents the beginning of the end. It has been such a great year and I do not want to see it end. But, we have lots of fun yet to come.

We will be learning about Spring, Nutrition, Caterpillars and butterflies and exploring some of Eric Carle’s books. We will have caterpillars in our classroom so we can all watch the transformation from caterpillar to butterfly.

We will be going to **Legoland** on April 17 and have **Beach Day** on April 5th. The children can wear their bathing suits and beach shoes, bring towels, sunglasses or anything beach related that day.

We have a lot of summer birthdays in our class and we want all the children to experience their special day with their friends, so Mrs. Wendland will put out a special list of what day we will be celebrating your child’s birthday. Please let us know if the day she has chosen does not work for you.

So, April promises to be very busy, very fun and very educational. I know it will go by very fast. Keep up the great work you do with your kids at home ‘cause kindergarten is just around the corner. Lynn and I are very proud of each of these children!

Diana Stoll and Lynn Wendland

Dates to remember:

Thursday, April 5.....Beach Day
Tuesday, April 17.....Legoland

SPECIAL NOTE: Our Graduation ceremony will take place here at the Triphan Center on Thursday, May 17th in the evening. All family members are invited to this most important celebration!
