Concrete Paving Scope - Scope includes furnishing and installing all concrete pavement, concrete curbs, concrete foundations, concrete sidewalk, concrete slabs on the site and offsite as well as any re-grading required to meet the proposed finished grades (note the earthwork contractor will be bringing the site to subgrade). Providing and installing ADA detectable warning panels and pavement striping within the concrete pavement areas will be included in this scope as well. The concrete contractor will also be responsible for the removal and the reinstallation of the identification sign (see note # 11 on the Site Demolition Plan and note # 11 on the Site Development Plan). The concrete contractor shall also install all subbase material (IE all CA-6, CA-7, etc.) for all concrete construction. The concrete contractor shall also coordinate utility location penetrations into curbs, foundations, etc. with the utility contractor. The concrete contractor will be responsible for the installation of the foundations for the proposed building, volleyball nets and shelter as well as the concrete slabs associated with the building and the shelter. The playground installer will install the foundations for the playground and fitness equipment. The concrete contractor shall coordinate the installation of the concrete spray pad with the playground installer.	\$403,000.00	\$220,400.00	\$278,600.00
