## Member Services/Sales

- The Club team enrolled 79 new members in September, a significant slowdown in new enrollments in comparison to the previous several months. Coupled with this lower number we saw a significant increase in cancellations, 131 total cancellations in September. This was not completely unexpected as we do always see both of these numbers trend this way in September. We hope to recover from this loss in October, kicking off the drive for new members with the open house at the beginning of the month, and continue to build up in November and December.
- The Club had 1,843 unique visits in September, meaning approximately $66 \%$ of members visited/used the facility at least once in September. Although this number is still above average for the industry, it is very low for us and what we usually see in visits month to month. This is likely a product of the drop off in student visits as they get back to school and begin activities and a general shift of schedules for everyone with the transition from summer to fall.
- The Club had 83 United Healthcare Renew Active pass holders use the facility in September (visiting at least one time), and 1 new enrollment under this program.
- The Club offered $\$ 25$ referral club cash to members who referred a new member in September, which is our ongoing referral promotion. We ended the month with 13 member referrals, so a little over $16 \%$ of our new members in September were referred from existing members which shows the importance and the power of referrals even in the slower months!

## Operations and Fitness Departments:

- The Club rentals stats for September:
- (54) volleyball rentals
(3) Birthday parties
(1) Lock-in, overnight (1) Fitness Room
- (35) basketball rentals (3) Pickleball court rentals (1) general gym rental
- The Club offered and ran the following programming options in September
- Youth Climbing
- Pickleball 101 (3 classes) and Pickleball 102 (2 classes)
- The Club's fitness team was busy in September taking inventory of equipment to determine what the facility needs were in terms of fitness accessories and small equipment. The fitness staff placed orders for two new portable Ballet Barres to replace old ones, a speed back and platform, boxing gloves and new loop bands.
- The Club received the second part of the large equipment order in September, four tread mills and two recumbent bikes from vendor Life Fitness, replacing the same pieces that were $10+$ years old.
- The Club auditioned two Zumba instructors in September and offered one person a position. Club fitness staff is currently looking for additional yoga instructors.
- The Club hosted a CPR/AED training class for 8 staff members, taught by the General Manager of The Club at the end of September.
