Marketing Report

All District C&M Production Metrics

The District is happy to welcome Justin Waters as our new Director of Marketing & Web Management. Justin will be joining us on Monday, March 9. He comes to us from Oak Lawn Park District and has over fourteen years of experience leading marketing and communication efforts for Chicago area park districts. He is eager to come on board to lead our already talented C&M team, and to help guide the launch of our new website.

In February, the Communications & Marketing team developed a new design and layout for the Summer Camp Program Guide and interactive flipbook, which launched on February 10. The team also produced all supporting marketing collateral for the summer camp program. Seascape passes went on sale February 4, accompanied by a targeted promotional campaign developed by the team.

Marketing supported 12 integrated campaigns across digital, print, email, and community channels. Deliverables included email campaigns, social media content, posters, event pages, signage, and onsite event support.

The team developed and distributed twelve HEParks email campaigns over the month, expanding outreach and audience engagement across key initiatives.

February email performance declined slightly compared to the prior month, with an average open rate of 22% versus 25.21% in January.

Website reach decreased slightly in February with 27,000 users compared to 28,850 in February.
